# LYOPHILIZED FRUIT CATALOGUE (FREEZE-DRIED FRUIT)

## **FREZZE DRIED FRUIT**

LIOPHILIZATION is a highly effective cold dewatering process for the production of ready-to-eat products that retain all their nutritional and physical properties (structure, taste, colour and aroma), with a shelf life of up to two years and without the use of artificial additives or preservatives.

# VARIETY, SUSTAINABILITY AND INNOVATION

- Long shelf life.
- No additives or preservatives.
- Retaining 99% of its physical and nutritional properties.
- Products of the highest quality.
- Easy to transport and store.
- Used in the food and pharmaceutical industries,
- Popular in hotels and restaurants thanks to its nutritional and organoleptic properties.
- Ideal as snacks, addition to cocktails and drinks.

## ADVANTAGES

Time optimization

Taste, texture, interesting combinations of various fruit

Long shelf life

Do not require cold storage

Minimizing costs, increasing efficiency
